

finds a better way or we are going to be left with ObamaCare for the rest of our lives and children's lives and those who follow.

The 2016 race domestically will be centered on health care as the most dominant domestic issue in the country. If you are running for the House, if you are running for the Senate or if you are running for President, here is what this Supreme Court ruling means: If the public wants to continue ObamaCare—which I think would be a huge mistake—vote Democrat. If you want to repeal and replace ObamaCare with something better for you and your family, bipartisan, vote Republican.

Hillary Clinton, the most likely Democratic nominee, will make ObamaCare her own. Whomever the Republican Party may nominate, the one thing I can assure you is that they will repeal and replace ObamaCare with something better.

So to the people of the United States: You finally have a chance to have your say. This election in 2016 for the House, the Senate, and the White House will give you a chance to stop ObamaCare and replace it with something better for you and your children. Take advantage of this opportunity. Because if we fail to have the people in place in 2016 to change course, ObamaCare becomes cemented in terms of the American health care system and our economic future. I think it would be a mistake for the ages.

#### NUCLEAR AGREEMENT WITH IRAN

Mr. GRAHAM. Mr. President, as I speak, Secretary Kerry is on his way to Geneva to try to conclude nuclear negotiations with the Iranian regime.

To Secretary Kerry: I urge you to suspend negotiations until we clear up two matters.

No. 1, the Supreme Leader Ayatollah Ali Khamenei said on state-run television in Iran, yesterday and the day before, "All economic, financial and banking sanctions, implemented either by the United Nations Security Council, the United States Congress or the administration, must be lifted immediately when the deal is signed." Secretary Kerry, would you please tell the Ayatollah that is unacceptable and repudiate that statement before you negotiate any further.

The Iranian Parliament, several days ago, passed draft legislation prohibiting the international community from having access to Iranian military facilities to determine the state of the Iranian nuclear program. Secretary Kerry, please suspend negotiations until the Iranian Government repudiates this concept. The P5+1 should be firm in these areas: There will never be a deal signed with Iran that does not allow for anytime, anywhere inspections of nuclear sites, particularly military sites. How can you negotiate any further until they repudiate the actions they have taken?

Please tell me—and I will send you a letter—what to tell my constituents

who are very worried about this. I am being overwhelmed by questions: Does the Iranian Parliament action represent the position of the Iranian Government? My answer would be yes. Nothing happens in Iran unless the Ayatollah wants it to happen.

So Secretary Kerry and the P5+1, please tell the Iranians that the action of the Parliament—the statement they have made that we will not be allowed to inspect military facilities as part of a deal—is a nonstarter and walk away until they repudiate that. Please send a message to the Ayatollah through the negotiators that we will not lift sanctions until there is full compliance, until the IAEA has a chance to tell us about the possible military dimensions of their nuclear program. How can you lift sanctions and go forward and give them money until you know exactly what they have been up to in the past?

Secretary Kerry, now is a time for you and President Obama to send a clear message to the Iranians: repudiate these two statements or we will not negotiate any further.

This is the most important decision any President of the United States will make, and we are about to go into negotiations in the final stages with two thought processes on the table coming from the highest level of the Iranian Government: You will not be allowed to inspect military facilities, and we will demand immediate sanctions relief before there is verification.

Those two statements coming from the Iranian leadership must be repudiated—and repudiated now. Walk away, Secretary Kerry, until they repudiate these statements. No more negotiations until we understand, is this a red line for the Iranians. Because if this is their red line, I will now ask you in public: Secretary Kerry, are these positions red lines for the Iranian Government? Have they now adopted a red line that you will never be allowed to inspect military facilities as part of an inspection regime to determine the past development of nuclear weapons in Iran? Secondly, is this now a red line by the Ayatollah; that they will never agree to a deal that doesn't allow for immediate sanctions relief?

I need to know the answer to that question. Are these red lines? And if they are red lines, walk away. And if they are not red lines, have these statements repudiated because this is the most important decision the world will ever make.

God help us all if we enter into a deal with this regime that is not sound, with every i dotted and every t crossed, because the Iranians have been cheating and lying about their nuclear ambitions for well over a decade, and at the end of the day, you can't trust the Iranians.

I urge as strongly as possible that the P5+1 suspend negotiations until the Iranians set the record straight and repudiate these statements about denying us access to military facilities and

requiring immediate sanctions relief as part of any deal.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

#### THE ECONOMY AND HEALTH CARE

Mr. ENZI. Mr. President, I want to talk a little bit today about jobs and the economy and people's health care, and they are all related. We are in the midst of one of the slowest growth periods for the economy in the recent history of the United States. They just revised the figures again. That makes three times the figures have been revised for the last quarter. They now show a two-tenths of 1 percent growth. They should be showing about 2 percent growth for the year.

Why is that a problem? If the economy increases by just 1 percent, it results in \$300 billion to \$400 billion more tax revenue without raising taxes. That is where we need to be. When it is less than that 2 percent, that means we are losing that much in additional money. We make these decisions on about \$1,100 billion a year, and we are overspending that by \$468 billion. That is almost 50 percent overspending. No family can afford to do that, no city can afford to do that, and no State can afford to do that, but apparently the Federal Government can because we just borrowed more. So far, there is a lot of confidence in this country that we can continue to borrow.

One of the areas where job growth and economy growth are impeded is with health care. President Obama is disconnected from the harsh reality that this health care law has created for people. Almost 2 weeks ago, speaking about his health care law, the President said:

Part of what's bizarre about this whole thing is, we haven't had a lot of conversation about the horrors of ObamaCare because none of them have come to pass.

None of them have come to pass? How insulated is our President? I just want to emphasize what he said—none of those horror stories have come to pass.

Apparently that message didn't make it very far because I hear a drastically different story from folks across Wyoming and other parts of the country.

A rancher from Gillette complained to me that her and her husband's health insurance went up from \$11,000 per year to \$20,000 per year and then had a deductible thrown in that was \$6,500. She said: How is that affordable?

A retired nurse from Casper told me that if you add the premium increases and the deductible increases, she and her husband are up \$36,000 per year.

She wrote: Health care is unaffordable. It is a huge burden and worry. How can people afford to pay more for health care than they make in a year?

She said that ObamaCare doesn't provide them with coverage for their medical needs and added that it goes
